Subject Copart - Misc Data Needed

Will & Simon,

Please see Patrice's e-mail below concerning the Property Insurance information. As you know, I will be in your offices in the morning; I would like to review how realistic the request are and what the potential timing for the information is.

Thanks, Mike

Subject Copart - Misc Data Needed

Mike,

At this time, following I believe is the information still open and needed for 2005 renewals

1. Statement of Property Values is incomplete with regard to insurable values and COPE information:

- Values have not been reported for certain locations and/or interests such as buildings, improvements, contents, computer, BI/EE, Inventory, contractors equipment, etc.
- Some carriers feel some location's building values are low in relation to square footages and are asking if some of the indicated building values are actually just tenants improvements
- Carriers now requiring complete COPE information for all locations [building construction, age, stories, square footage, sprinklering, etc.]

Property Statement of Values 9-19-05.xls

2. Need a current schedule of contractors equipment items and values. This one which included as preliminary in specs is a year old:

Property - Off Road Equipment 10-1-04.xls
